I am a fourth-year Information and Communication Technology student at Rangsit University International College with experience in frontend development, backend development, machine learning, and data analytics. I enjoy transforming ideas into practical, user-friendly applications while continuously expanding my knowledge of software development and emerging technologies. I am passionate about developing easy-to-use, responsive web applications and leveraging data to generate meaningful insights. My goal is to grow as both a developer who builds intuitive user experiences and a data scientist who applies data-driven approaches to solve real-world problems.

Education

Rangsit University International College

Bachelor of Science in Information and Communication Technology

Pathum Thani, Thailand
2023 - Present

- GPA: 3.94/4
- Relevant Coursework: Operating Systems, UI/UX Designing, Big Data Analysis, Fundamentals of Machine Learning, Object-Oriented Programming, Database Management Systems, Web Development, Computer Networks, Data Structures & Algorithms, Cybersecurity Fundamentals

Karma Academy

Paro, Bhutan
2021 - 2022

- Higher Secondary Education

Chukha Central School

Chukha, Bhutan
2010 - 2020

- Secondary Education
- School Captain, IT Club Assistant Leader, Scout Leader
- Awards: Best Student, Best Scout

Leadership & Work Experience

Frontend Developer

KodaDev

Self-employed | Bhutan | On-site
Jan 2026 - Present

- Developed responsive web applications with a focus on performance and usability
- Improved user interface design and optimized application performance
- Collaborated with team members using Git and GitHub for version control and project management

Assistant Leader, IT Club

Chukha Central School

Chukha, Bhutan
2019 - 2020

- Assisted in organizing technology workshops and school IT events
- Supported students with coding activities and basic technical guidance
- Coordinated club activities and collaborated with team members to ensure successful event execution

Projects

BhutanDevelopersConnect

- Co-developed **BhutanDevelopersConnect**
- Designed and developed a collaborative platform connecting developers across Bhutan using TypeScript
- Tested web pages, fixed UI issues, and improved website usability through continuous updates.
- Worked collaboratively using Git and version control

GameFit AI

- Developed and implemented backend components of a real-time motion-controlled gaming platform in Python
- Processed real-time pose data using MediaPipe and OpenCV
- Implemented gesture-to-input mapping using PyAutoGUI
- Optimized a two-tier architecture for low latency processing and smooth interaction with external PC/web games

Hospitality ERP Hackathon 2025

- Developed a Business Intelligence (BI) dashboard
- Performed customer segmentation and data visualization to support business decision-making
- Cleaned, organized, and interpreted datasets to identify customer behavior and trends
- Awarded 3rd Place in the Hospitality ERP Hackathon 2025

Technical Skills

- **Programming:** Python, Java, PHP, JavaScript, TypeScript, Dart
- **Web Development:** HTML, CSS
- **Databases:** SQL, MySQL
- **Data Analysis & Visualization:** Power BI, Tableau, Matplotlib, Seaborn
- **Tools:** Git, GitHub, VS Code, Apache, Docker, Jupyter Notebook, Google Colab, AI Studio
- **Microsoft Office & Google Workspace:** Excel, Word, PowerPoint, Teams, Forms, OneDrive, Google Docs, Google Sheets, Google Drive
- **Design Tools:** Figma, Canva
- **Technologies:** Machine Learning

Certifications & Achievements

- Odoo Certification
- Digital Literacy
- 3rd Place - Hospitality ERP Hackathon 2025

Languages

- Dzongkha (Native), English (Full professional proficiency), Thai (Beginner)
